APPLICATION FOR PROFESSIONAL SURVEYOR BY EXAM

INSTRUCTIONS: Applicants should read all statutes, rules and regulations for specific details regarding requirements. All statutes, rules & regulations are available on our website.

- ♦ This application is to determine eligibility for the Professional Surveyor exam and the Kansas State Specific Surveying exam (See information listed below.) Applicant must pass both the PS exam and the KSS exam to receive a license. **DO NOT** register with NCEES until you receive your approval letter from KSBTP.
- Exam results are mailed to the p mailed.
 Second to the p mailed.
 Second to the p mailed.

A COMPLETE APPLICATION WILL INCLUDE THE FOLLOWING:

- 1. COMPLETED APPLICATION FORM Print completed form, sign and date, then send all information to KSBTP. File must be complete no later than January 15 to be considered for the April exam and no later than June 15 for the October exam. Pending applications are kept on file for one year.
- 2. NON-REFUNDABLE APPLICATION FEE (\$60) Make check or money order payable to: Kansas State Board of Technical Professions
- 3. TRANSCRIPTS Send an "official," sealed transcript or have the school send a transcript directly to KSBTP. Do not send photocopies or unsealed transcripts. Foreign degrees must be evaluated by NCEES. (See special instructions listed below.)
- 4. SURVEYING EXPERIENCE See *Table of Requirements for Professional Surveyor Examination* on Page 6. In order to receive experience credit, any surveying work experience after May 1, 1988, must have been supervised by a licensed surveyor. In order to qualify for the Professional Surveyor exam, applicant must have first passed the Fundamentals of Surveying exam. Exam applicants must complete the *Classification of Tasks* worksheets starting on Page 7. Experience submitted with Fundamentals of Surveying exam (if taken in Kansas) need not be re-submitted. Applicant must have completed all required experience before applying for the Professional Surveyor exam.
- 5. **PROFESSIONAL REFERENCES** To receive credit for experience, it must be verified by your supervisor. You must supply a minimum of three licensed references. At least one must be a licensed surveyor. Two may be licensed engineers. Send a copy of the completed professional experience record with a reference form to each reference. Professional reference forms must be returned <u>directly</u> to the board office from the person supplying the information. Relatives may not serve as references. The Reference Forms may be 'handwritten'
- 6. VERIFICATION OF EXAMS If you took the FS exam in a state other than Kansas, you must request verification of that exam to be sent to the Kansas Board using the NCEES electronic verification process. Go to <u>https://verify.ncees.org/boards/1022</u>. Fill in the requested information and submit. Once the process has been completed and the Kansas Board has been sent your verification, you will receive an email notice. If the State Board you are requesting verification from is not listed on the NCEES form, contact that Board for instructions.

Application is not complete until the application and supporting documentation have been received by the board office. Only complete applications will be submitted to the Board for evaluation. Applicant will be notified in writing of Board action.

MAIL COMPLETE APPLICATION FILE TO KSBTP AT ADDRESS LISTED ABOVE. Handwritten or incomplete forms will NOT be accepted.

SPECIAL INSTRUCTIONS FOR APPLICANTS WITH BACCALAUREATE ENGINEERING DEGREES FROM OUTSIDE THE UNITED STATES: Any applicant with a baccalaureate surveying degree from outside the United States must have that degree evaluated by NCEES before educational credit may be considered by the Board. For an NCEES credentials evaluation, www.ncees.org, phone: 1-800-250-3196 or (864) 654-6824. Request a report be sent to the Board.

KANSAS STATE-SPECIFIC PROFESSIONAL SURVEYING EXAMINATION CONTENT: Applicants must pass an open-book two part Kansas State Specific exam to be licensed

Applicants must pass an open-book two	part Kallsas State	1	
PART I – GENERAL		PART II–US PUBLIC LAND SURVEY SYSTEM	
One Hour all multiple choice-		One Hour multiple choice & mathematical problems-	
Kansas Minimum Standards for	54%	Original GLO procedures, the GLO System	30%
Property Boundary Surveys		as applied to Kansas, GLO Section protraction	
Rules and Statutes of the Kansas Board of Technical Professions	27%	Numerical calculator problems applied to USPLSS for KS (Calc)	37%
Kansas State Plane Coordinate System	11%	Resurveys of the US Public Land Survey System	33%
Kansas Riparian Boundaries	8%		

See our website for more information on the Kansas State Specific Exam requirements.

Keep a copy of this application for your records.

Date

PROFESSIONAL EXPERIENCE RECORD FOR SURVEYING: (One Engagement Per Form)

• Any credit for experience must be verified by a supervisor. Surveying work performed after May 1, 1988, must be under the direct supervision of a licensed professional surveyor, per K.A.R. 66-10-12(a)(1)(B).

INSTRUCTIONS:

1. In chronological order beginning with first engagement, enter month and year of engagement. The letter (a) designates first experience engagement. Letter subsequent engagements consecutively with (b), (c), etc.

2. State the title of the position along with the name and address of employer. Surveying experience must be explained in detail giving specific examples. If employed by more than one employer, each is considered a separate engagement. Use a separate form for each engagement. Complete additional forms and print as needed. Do not leave any gaps in experience. If surveying experience was interrupted by work in other fields, illness, military service, etc., complete the section titled "Non-Surveying Employment/Unemployment" on Page 4.

3. Enter the amount of time spent in (1) basic surveying and (2) progressive surveying. Use Years/Months. (Example: 3 years/4 months.) Refer to *Survey Experience of a Character Satisfactory to the Board* (Page 5) and *Classification of Tasks for Progressive Surveying Experience* (Page 7) with this application to determine how to categorize work experience.

4. Enter the name of the supervisor who will verify each engagement. Send reference forms (Pages 11 and 12) and a copy of your experience record to each individual listed. Each surveying engagement must be verified to obtain credit. Supply one reference for each experience engagement.

APPLICANT NAME:

Engagement:(a,b,c,etc.) Position(s) He	eld:
Employer Name:	
Employer Address:	
Supervisor Name:	Supervisor License #:

SUMMARY OF PROFESSIONAL EXPERIENCE RECORD

Enter the total time from all surveying engagements in each category. (YEARS/MONTHS)

(1) Basic Surveying Time:	Y	Μ
(2) Progressive Surveying Time:	Y	M
(3) Total Surveying Time:	Y	M

REFERENCE SUMMARY FORM

Please list the name and license number of the supervisor that will be verifying each engagement. Three licensed professionals must provide reference forms.

ENGAGEMENT (a,b,c, etc.)	NAME OF REFERENCE	PROFESSIONAL LICENSE NUMBER

NOTE: Supervisor must be a licensed professional surveyor in order to receive credit for any experience after May 1, 1988.

SURVEY EXPERIENCE OF A CHARACTER SATISFACTORY TO THE BOARD

The Kansas Board has determined that a certain amount of surveying experience must consist of "Progressive" surveying experience. The following guidelines shall be used to assign credit for work experience:

Progressive surveying experience may include the following eight (8) elements of professional surveying: project management; research; measurements and locations; computations and analysis; legal principles and reconciliation; land planning and design; monumentation; and documentation and land information systems. These guidelines closely follow the NCEES guidelines which were developed from a comprehensive task analysis of work performed by licensed professional surveyors throughout the country. NOTE: It is not necessary to have experience in all eight (8) elements to qualify for the FS.

- <u>PROJECT MANAGEMENT</u> A professional surveyor should have a knowledge of: Prevailing professional standards, practices and ethics; being able to communicate with clients, contractors, government agencies, etc.; dealing with administrative problems concerning selection of appropriate control and necessary data for a project; estimating required time and materials; selecting safety standards and policies; determining what supervisory controls, priorities, interpersonal relations, record documentation and procedures to use; and managing drafting work, survey and computer use.
- <u>RESEARCH</u> A professional surveyor should have a knowledge of how and where to obtain information necessary to complete a project and the relevance of various information to a particular application, including: land records, land descriptions, soils and vegetation, rules of evidence, court decisions, regulations, riparian determinations, highway maps and plans, land title, real property acquisition, rights of way, workplans, standards, policies and procedures.
- 3. <u>MEASUREMENTS AND LOCATIONS</u> A professional surveyor should have a knowledge of various measurement techniques and mathematics involved such as: title surveys, topographic surveys, plane and geodetic surveys, boundary determinations, taping, leveling, electronic distance measurement, horizontal and vertical control, direction, traverse, triangulation, trilateration, stadia, celestial observations and error balancing and reduction techniques; also have a knowledge of use and maintenance of surveying and related equipment such as: tape, transit, theodolite, electronic distance measuring (EDM) equipment, total stations, level, rods, compass, photogrammetric equipment, plumb bob, odometers, etc.; and be able to understand and conform with codes and standards.
- 4. <u>COMPUTATIONS AND ANALYSIS</u> A professional surveyor should have a knowledge of: mathematics including algebra, trigonometry, geometry and statistics; computational techniques including computer application and usage associated with accuracy, traverse, triangulation, trilateration, differential and trigonometric leveling, angles and directions, geographic position, public land system, state plane coordinates, errors and adjustments, horizontal and vertical curves, photogrammetry, earthwork quantities, plane and geodetic surveys, area, volume, and construction layout; and analyzing data and evidence using computations, prevailing professional standards, judgment and legal standards, land titles, survey plats and parcel descriptions.
- <u>LEGAL PRINCIPLES AND RECONCILIATION</u> A professional surveyor should have knowledge of legal principles applicable to: real estate, surveying, mapping and contract law, resolution of conflicts through analyzing data and records, court decisions and land title, standards, policies and procedures, rules of evidence and land descriptions.
- 6. <u>LAND PLANNING AND DESIGN</u> A professional surveyor should have a knowledge of: basic land planning (including lot and street layout), general requirements for land development, determine constraining factors which may limit development, earthwork quantities, required control, plans and maps, computations for design and layout, horizontal and vertical control, photogrammetric mapping, topographic surveys, boundary information, land ownership and planning and zoning.
- <u>MONUMENTATION</u> A professional surveyor should have a knowledge of: vertical and horizontal monumentation, types and priorities of existing monumentation, placement or replace of monuments, determination of validity of existing natural or manmade monumentation, lost or obliterated corners and monuments of record, the use of highway plans or survey plats for information on monumentation, construction layout and boundary determination.
- 8. DOCUMENTATION AND LAND INFORMATION SYSTEMS A professional surveyor should have a knowledge of: maintaining records, preparing maps and plats, documenting field and record evidence, writing property descriptions, drafting techniques, standards and regulations. A professional surveyor should also have knowledge of: vertical and horizontal monumentation, types and priorities of existing monumentation, placement or replacement of monuments, determination of validity of existing natural or manmade monumentation, lost or obliterated corners and monuments of record, the use of highway plans or survey plats for information on monumentation, construction layout and boundary determination.

Basic surveying experience is considered by the Board to include surveying experience which is normally identified with engineering projects. This would include construction staking, curb and gutter projects, sanitary sewers, and design surveys for highways or bridges other than those that relate to right-of-way surveys.

TABLE OF REQUIREMENTS FOR PROFESSIONAL SURVEYOR EXAMINATION

This table is provided only as a guideline. All educational credit must be verified by transcripts.

* Related Science Curriculum – Degrees in subjects which are related to surveying may include geology, math, chemistry and physics.

** The total number of years of experience must be six. All six years could in "progressive" surveying. The maximum "basic" experience allowed is two years, but there is no minimum requirement for "basic" surveying experience.

*** K.A.R. 66-9-5(f): successful completion of at least 12 semester hours of approved surveying coursework consisting of three semester hours in each of the following, from a school or college approved by the board: (1) Surveying measurements and analysis; (2) global positioning system (GPS) surveying techniques; (3) real property law; and (4) boundary control and legal principles.

**** The total number of years of experience must be eight. All eight years could be in "progressive" surveying. The maximum "basic" experience allowed is two years, but there is no minimum requirement "basic" surveying experience.

APPLICANT NAME: _

CLASSIFICATION OF TASKS FOR "PROGRESSIVE" SURVEYING EXPERIENCE

Enter a checkmark under the appropriate engagement indicating the element and tasks in which you obtained experience. It is not required that each block be completed for each engagement as you may not have received experience in all areas.

ELEMENTS & TASKS

ENGAGEMENT EXPERIENCE

<u>1. PROJECT MANAGEMENT</u>

- 1. Advise clients of potential problems.
- 2. Consult with clients/owners and clients' attorneys.
- 3. Determine procedures to comply with ethical conduct.
- 4. Plan monument recovery.
- 5. Determine required levels of precision and order of accuracy.
- 6. Select appropriate vertical and/or horizontal datum.
- 7. Process documents and maps requiring approval through government agencies.
- 8. Determine basis for bearings.
- 9. Contact adjacent land owners regarding boundary or entry rights.

2. RESEARCH

- 1. Research prior survey, maps, field notes and aerial photos.
- 2. Research deeds.
- 3. Research record survey files and indices.
- 4. Research governmental records, rules, regulations and statutes.
- 5. Research road, railroad and utility plans and records.
- 6. Consult with other surveyors.
- 7. Research grantor/grantee indices.
- 8. Obtain previous land development plans.
- 9. Research title company records and reports.
- 10. Gather parol evidence.
- 11. Research court records and reports.
- 12. Research assessors records
- 13. Research case law.

3. MEASUREMENTS AND LOCATIONS

- 1. Locate existing monumentation.
- 2. Retrace boundary lines.
- 3. Perform angular and linear measurement.
- 4. Perform boundary surveys of vacant and/or improved parcels.
- 5. Calibrate instruments.
- 6. Recover horizontal and vertical control.

Α	В	С	D	Е	F	G	Н

Α	В	С	D	Е	F	G	Н

Α	B	С	D	E	F	G	Н

- 7. Determine locations of man-made and natural objects.
- 8. Perform topographic surveys.
- 9. Perform construction staking.
- 10. Perform route & right-of-way surveys for roads, railroads or utilities.
- 11. Obtain data with total station.
- 12. Perform as-built surveys of constructed improvements.
- 13. Perform differential leveling.
- 14. Perform water boundary surveys.
- 15. Perform ALTA/ACSM surveys.
- 16. Establish photogrammetric control points.
- 17. Perform photogrammetric control surveys.
- 18. Perform trigonometric leveling.
- 19. Perform flood plain surveys.
- 20. Perform condominium surveys.
- 21. Perform geodetic surveys.

4. COMPUTATIONS AND ANALYSIS

- 1. Compare researched records with field data.
- 2. Compute coordinate values.
- 3. Verify field notes for completeness and accuracy.
- 4. Analyze existing control.
- 5. Compute and review closures and adjust traverse.
- 6. Compute areas.
- 7. Prepare work sheets of surveys for final drafting & boundary determinations.
- 8. Adjust field measurements.
- 9. Analyze sources of error.
- 10. Adjust coordinates to appropriate datum.
- 11. Evaluate parol evidence.
- 12. Determine positional tolerances.
- 13. Compute volumes.
- 14. Compute astromonic azimuths.

А	B	С	D	E	F	G	Η
<u> </u>							

Α	B	С	D	Ε	F	G	Н

5. LEGAL PRINCIPLES AND RECONCILIATION

- 1. Compare researched records with field data.
- 2. Identify boundary line discrepancies.
- 3. Reconcile records and field evidence.
- 4. Reconcile conflicting deed descriptions.
- 5. Determine location of easements.
- 6. Consider the priority of calls.
- 7. Identify field conditions for evidence of possession.
- 8. Advise clients regarding boundary uncertainties.
- 9. Determine potential adverse possession claims.
- 10. Apply Public Land Survey System principles.
- 11. Identify riparian boundaries.
- 12. Review documents for clients and/or attorneys.
- 13. Identify littoral boundaries.
- 14. Testify as an expert witness.

6. LAND PLANNING AND DESIGN

- 1. Design horizontal alignment for roads within a subdivision.
- 2. Determine easement constraints.
- 3. Determine subdivision development requirements.
- 4. Determine and prepare lot and street patterns for land division.
- 5. Design vertical alignment for roads within a subdivision.
- 6. Determine flood plain limits.

Α	В	С	D	Е	F	G	Н

Α	В	С	D	E	F	G	Н

APPLICANT NAME: _____

7. MONUMENTATION

- 1. Set monuments.
- 2. Perpetuate existing monumentation.
- 3. Describe monuments.
- 4. Establish benchmarks.
- 5. Reference monuments.
- 6. Select monument types.

Α	В	С	D	Ε	F	G	Н

8.DOCUMENTATION AND LAND INFORMATION SYSTEM	Α	B	C	D	Е	F	G	Η
1. Prepare boundary survey maps.								
2. Prepare land descriptions.								
3. Prepare final plats and land division plats.								
4. Prepare and file record of survey.								
5. Prepare topographic and contour maps.								
6. Perpetuate records for monuments and benchmarks.								
7. Prepare easement plats.								
8. Prepare sketch and/or preliminary plats.								
9. Prepare right-of-way maps.								
10. Prepare "as-built" maps.								
11. Prepare and file corner records.								
12. Document potential possession claims.								
13. Prepare ALTA/ASCM survey maps.								
14. Prepare condominium plats.
