

PE Exam Scores Released on May 24, 2018

PE applicants who took the exam in April 2018 may now check their scores in their NCEES records. **Applicants who passed the exam do not need to do anything further to obtain licensure**; the Board office is processing the scores and will send licensure approval letters to the applicant's preferred address on file. The approval letter has all of the information necessary to obtain and submit your seal. Applicants who did **not** pass may re-test as early as October 2018. Please contact the Board office for direction if you have failed the exam three times. Staff will provide guidance on how to request a fourth exam attempt.
