From the Executive Director

Substitute for H B 2066 will become law on July 1, 2021. The new law creates an expedited pathway for reciprocal licensure. Applicants who may qualify for the new licensure rules include military service members or military spouses and applicants who reside in Kansas or who intend to reside in Kansas. Among other requirements qualifying applicants must hold a current valid license in another jurisdiction, not have past or pending disciplinary actions and have practiced in the profession for which they seek licensure for at least one year. For those who qualify licenses are to be issued within 15 to 45 days after receipt of a completed application.

Licensure pocket cards

Pocket cards are emailed to individuals, after renewal, within 3-5 business days. If you don't receive yours, please check your spam folder before requesting another.
